Our retail business sustained strong growth momentum, with retail revenue reaching RMB1.07 billion in the first quarter, up 54% year-over-year. Atour Planet remained focused on innovation, continuously launching new iterations that further validated our brand and product strength in the market.”

“Looking ahead, guided by our new strategy of ‘Chinese Experience, Brand-Led Excellence,’ we will firmly seize the innovation opportunities arising from industry transformation, and convert these opportunities into sustainable, long-term growth drivers. At the same time, we will stay true to our founding aspirations, continuously fulfill our corporate responsibilities, and steadily advance toward our long-term vision of ‘A Timeless Atour, Warmth Along Every Journey,’ and make steadfast and warm contributions to the industry and to society,” Mr. Wang concluded.

Use of Non-GAAP Financial Measures

To supplement the Company's unaudited consolidated financial results presented in accordance with U.S. Generally-Accepted Accounting Principles ("GAAP"), the Company uses the following non-GAAP measures defined as non-GAAP financial measures by the U.S. Securities and Exchange Commission: adjusted net income, which is defined as net income excluding share-based compensation expenses; adjusted net income per ordinary share - Diluted, which is defined as net income attributable to the Company excluding share-based compensation expenses divided by the number of weighted average ordinary shares used in calculating net income per ordinary share - Diluted; EBITDA, which is defined as earnings before interest income, interest expense, income tax expense and depreciation and amortization; adjusted EBITDA, which is defined as EBITDA excluding share-based compensation expenses. The presentation of these non-GAAP financial measures is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with U.S. GAAP. For more information on these non-GAAP financial measures, please see the table captioned "Reconciliations of GAAP and non-GAAP results" set forth at the end of this release.

The Company believes that EBITDA is widely used by other companies in the hospitality industry and may be used by investors as a measure of the financial performance. Given the significant investments that the Company has made in leasehold improvements and other fixed assets of leased hotels, depreciation and amortization comprises a significant portion of the Company's cost structure. The Company believes that EBITDA will provide investors with a useful tool for comparability between periods because it eliminates depreciation and amortization attributable to capital expenditures. Adjusted net income, adjusted net income per ordinary share - Diluted, and adjusted EBITDA provide meaningful supplemental information regarding the Company's performance by excluding share-based compensation expenses, as the investors can better understand the Company's performance and compare business trends among different reporting periods on a consistent basis. The Company believes that both management and investors benefit from referring to these non-GAAP financial measures in assessing the Company's performance and when planning and forecasting future periods. These non-GAAP financial measures also facilitate management's internal comparisons to the Company's historical performance. The Company believes these non-GAAP financial measures are also useful to investors in allowing for greater transparency with respect to supplemental information used regularly by Company management in financial and operational decision-making. The accompanying tables provide more details on the reconciliations between GAAP financial measures that are most directly comparable to non-GAAP financial measures.

The use of these non-GAAP measures has certain limitations, as the excluded items have been and will be incurred, and are not reflected in the presentation of these non-GAAP measures. Each of these items should also be considered in the overall evaluation of the results. The Company compensates for these limitations by providing the disclosure of the relevant items both in its reconciliations to the U.S. GAAP financial measures and in its consolidated financial statements, all of which should be considered when evaluating the performance of the Company.

In addition, these measures may not be comparable to similarly titled measures utilized by other companies, as these companies may not calculate these measures in the same manner as the Company does.

SHANGHAI, May 13, 2026 /GlobeNewswire/ -- Atour Lifestyle Holdings Limited (“Atour” or the “Company”) (NASDAQ: ATAT), a leading lifestyle group in China, today announced that as part of its commitment to enhancing shareholder value, the Board of Directors (the “Board”) has declared a cash dividend under its three-year annual dividend policy (the “Annual Dividend Policy”) adopted in August 2024.

In accordance with the Annual Dividend Policy, as the first dividend payment in 2026, the Board today declared a cash dividend of US\$0.18 per ordinary share, or US\$0.54 per American depositary share (“ADS”). The cash dividend will be payable in U.S. dollars on or around June 22, 2026 to the holders of record of the Company’s ordinary shares (excluding certain Class A ordinary shares previously held by The Bank of New York Mellon, as the depository bank, for bulk issuance of ADSs reserved under the Company’s share incentive plan) and ADSs as of the close of trading on June 5, 2026 (U.S. Eastern Time). Dividends to be paid to the Company’s ADS holders through the depository will be subject to the terms of the deposit agreement by and among the Company, the depository, and the holders and beneficial owners of ADSs issued thereunder, including the fees and expenses payable thereunder.

The Board adopted the Annual Dividend Policy in August 2024, under which the Company plans to declare and distribute dividends with an aggregate amount of no less than 50% of its net income for the preceding financial year in each of the three financial years commencing in 2024. Under the Annual Dividend Policy, the exact dividend amount will be determined at the Board’s discretion based on its assessment of the Company’s actual and projected results of operations, financial and cash position, capital requirements, and other relevant factors.
